POLICY REGARDING MINOR CLIENTS (AGES 17 AND UNDER)

In order to best meet the needs of minor clients and their families, it is our policy to require the presence of a parent or appropriate care provider at the initial appointment of a minor. If a minor resides in a foster home or a residential treatment facility, a written report of developmental history, pertinent information, and reason for referral must be forwarded by the referral resource (usually a county social worker) prior to the initial appointment. Additionally, the minor must be accompanied by a foster parent, social worker, or residential staff person who is knowledgeable about the child and available for consult during the session.

A parent or responsible adult must remain in the building during therapy sessions of any child age 15 and under. During the initial session, the therapist will discuss parental (foster parent or staff) participation in subsequent sessions. We strongly recommend that other siblings do not accompany the parent to the sessions since their presence in the interview may inhibit the sharing of pertinent information or distract from the needs of the minor client. Because we believe that these expectations are in the best interest of minor clients, we may not be able to provide services to minor s unless these guidelines are met.

Reminding parents and responsible caregivers of the following:

- Children age 15 and under or any child regardless of age who needs adult supervision should not be left unaccompanied in the reception space.
- A parent or responsible adult must remain on-site for any child 15 years or younger while the child is in session.
